## Lumber Transportation Solutions

*Extending Your Reach Through Rail*

# No Access to Rail? No Problem.

If you always wished you could reap the benefits of rail but didn't know how — or want to use rail to reach markets you don't currently serve today — Union Pacific Distribution Services (UPDS) can help.

Regardless of whether you or your customers have tracks at your door, UPDS knows how to combine the economics of long-haul rail service with the flexibility of over-the-road movements so you can ship products farther, more affordably.

## Transloading — Your Solution for Moving Lumber by Rail

Through transloading, lumber moves seamlessly between trucks and trains, allowing non-rail-served customers to leverage affordable rail shipping.

UPDS operates an extensive network of lumber transload facilities, allowing you to ship by rail throughout North America.

With a door-to-door solution, you can access the benefits of rail without any additional hassle. We'll bundle the rates for all North American rail services, transloading and truck delivery so you get just a single invoice. We'll handle all of the coordination in between.

## Get Greater Visibility, Too

Beyond transloading, UPDS also offers shipment tracking and logistics services. These range from providing validated data for your shipments to total logistics management by a dedicated Logistics Service Representative — a single point of contact whose job it is to maximize efficiency within your organization.

# The UPDS Lumber Transload Network

	Union Pacific Railroad		Lumber Production Areas
	UPDS Railport		Higher-Density Production Locations
	NetEx Transload Facilities		Lower-Density Production Locations
	Mexico Gateways		

To see our standard lumber transload rates, visit [UPDS.com](http://UPDS.com). Or, to request a custom quote for a move not listed in our public rates, contact us at [UPDSproductinfo@up.com](mailto:UPDSproductinfo@up.com).

# The Transload Advantage

When you take advantage of transloading, you can:

- > Reach new markets via eight UPDS-owned lumber railports and 275+ lumber transload terminals
- > Save through the economies of rail
- > Forward-stage inventory for just-in-time delivery
- > Add additional capacity for your plant
- > Increase your selling and growth opportunities
- > Simplify billing with a single invoice for multiple modes of transportation
- > Make doing business easier
- > Benefit your bottom line

To learn more about how transloading can benefit your business, visit [UPDS.com](http://UPDS.com) or contact us at [UPDSproductinfo@up.com](mailto:UPDSproductinfo@up.com).

## We'll Customize a Solution Just for You

We have extensive expertise in material handling and supply chain management, so we can customize a solution to accomplish your goals.

We can also provide:

- > Storage
- > Forward staging
- > Truckload-size quantities
- > Inventory management
- > Trimming, repackaging and other value-added services

Simply tell us your needs, and we'll find a way to make it happen.
